Abstract: This in the article wives and daughters social protection and Gender equality, legal Protection – Women rights and to them relevant legislation, this regarding done increasing reforms, promising plans statistical information and analytical materials based on legal protection illuminated.

Keywords: Gender equality, Women rights, legislation, National program Uzbekistan Republic Constitution, Laws, Women notebook, from violence protection to do, International Labor Organization.

Introduction: Our President Sh. Mirziyoyev as they point out, " Our lives angel was moon our mothers, kind to our sisters worthy labor and marriage conditions creating to give them agree to do – all level leaders not only service task, perhaps, the most first of all, human " It is a duty." In our country women and children rights , freedoms and legal interests oppression and from violence reliable protection to do institutional and legal the basics fundamentally to improve , children between of lack of control and they by offenses happened of the prevent to take , as well as disability was the children and parents from the care of deprived was the children state by to support aimed at wide extensive affairs done is being increased . Our country population almost half organization enough respected our mothers, our sisters legal right and interests provision, women's in society place and prestige increase regarding state policy take This is exactly how we go. to values we rely on. Next in years this important of the matter practical to the execution 24 targeted document, including 2 law, 6 presidential decrees decree and decision, Ministers 16 of the court decision acceptance done to our sisters was high attention and is an expression of today. on the day in our country Gender PCB provision according to commission, Supreme Assembly Senate Wife - daughters and gender equality issues Committee, Republic Wife - daughters public council such as structures our sisters interests protection in doing important role is playing.

To independence achieved then also initially to the traditions loyal remaining without it , this to the point separately attention In Uzbekistan , the 1998 " Family " " Women of the Year " , 1999 " Year " , " Mother " of 2001 and child " Year " , " Strong " of 2012 family " Year " , " Healthy " 2014 child " Year " , " Healthy " 2016 mother and child " People of the Year " 2017 with communication and human interests year " announcement to be done wives and daughters social protection and Gender equality regarding important steps it has been .

In 2022 - 2026 wife - daughters country economic, political and social of life all on the fronts activity increase according to acceptance made National in the program

- In Uzbekistan, " By 2030" was in the period stable development in the field National goal and tasks " within the framework priority from goals one as "Gender PCB to provide and all wife - daughters right and opportunities expansion" is set.

This to the goal achieve for wife - daughters own right and interests social - economic in the field done in the increase them support in mind catcher programs expansion demand will be completed in 2022 - 2026 wife - daughters country economic , political and social of life all on the fronts activity increase according to National program (next) in the ranks — National program) women and girls support according to state of the policy main directions defines .

National program Uzbekistan Republic Constitution , " For the Youth" related state policy " About " , " Women and Girls" oppression and from violence protection to do about " , " Women and girls and men for equal right and opportunities guarantees about " Uzbekistan Republic laws , Uzbekistan Republic The Senate of the Oliy Majlis " By 2030" Uzbekistan Gender equality in the Republic achieve strategy confirmation about decision , international of the right universally recognized done principles and standards , Uzbekistan Republic of international from contracts come outgoing rules and other law to the documents appropriate prepared .

Last in years in our country women and men for equal right and opportunities creation, society and state their work in management their full- fledged participation to reach provision, socio-economic and legal in terms of support, as well as pressure and from violence protection to do aimed at wide extensive reforms done increased.

In Parliament women number by UN designated to recommendations suitable to the level reached 32 percent organization The women and girls management in office share of 27 percent, entrepreneurship 25 percent in the field, political 44 percent in parties, higher 46 percent in education enough.

Women and girl's oppression and from violence protection to do issues according to solid legal basics created. Including, oppression and from violence to the victim state protection presented provider protection warrant to give order on the road put this order from violence in 2020-2021 through victim 35 thousand views more women protection was done.

Women's appeals according to day and night activity 1211 short digital "trust" via phone " By 100 thousand in 2021 alone close women's appeals solution was done.

Women rehabilitation to do and adaptation republic center and its 14 regional and 14 samples interdistrict centers organization This is the in places for 50 thousand close to women psychological, legal, medical and other kind of aids was shown.

Others to care needy old aged women every one-sided support. "Women"notebook" included needy women's busyness provide and entrepreneurship on the road to put to assist own inside takes.

Confession arrived transition possibly in Uzbekistan their wives respect, respect in society role increase state of the policy important from directions to one became. In Uzbekistan women of activity legal basics international contracts, Uzbekistan Republic Constitution, national laws, gender equality provide

and women rights protection to do aimed at state programs based on is installed. Below In Uzbekistan women of activity main legal basics quoted:

Uzbekistan Republic Constitution: Uzbekistan Article 58 of the Constitution from sex strict look, all citizens equal right and freedoms It guarantees gender- based discrimination prohibits and gender equality and women rights principles strengthens.

National legislation: in Uzbekistan women rights protection to do and gender equality to provide aimed at one how much law and normative documents acceptance for example, " Men and women's equal right and of possibilities guarantees " About " , " Women social protection to do "About", " Household of violence prevent to take "about" laws women's rights and gender equality to provide aimed at important law documents.

In general, in Uzbekistan, in general women of activity legal the foundations of gender equality provide, women rights protection to do, women society of life all on the fronts complete participation to grow opportunities to expand focused.

Conclusion as in other words, in Uzbekistan women rights protection to do and gender equality provide high at the level take is going.To success achieved although there are problems still preserved remains and this legal of bases effective done increase provide and gender imbalance in the country eliminate to grow according to efforts continue to hold necessary. In our country women work places, with housing to provide them with medical service show quality improve to the issues separately attention is being given. In this regard women to professions again teaching centers current cheap housing program implemented being increased important importance Every year heavy marriage under the circumstances living women's by housing elementary contributions state budget at the expense of pay is being given. Society in life active participation going, various in the fields instructive to the results achieving, healthy and perfect generation to educate worthy contribution adding Our sisters March 8 – International women Independence Day day , various profession holidays attitude with our state high awards , as well as the " Reliable" woman's " breast" target with is being awarded . Today Uzbekistan women every one on the front own instead of has to be going all of us directly in practice seeing Our kind. Women and girls, social and political activity increase, them to support circle very many affairs done is being increased. Wife - girls education and professional skills they deserve work to find every one-sided support, entrepreneurship support, talented young women determination and them ability right shaping for all

opportunities to work is being imposed.

In Uzbekistan current at the time wife - daughters main part educated, by nature are active. Among them academics, scientists, themselves your field large experts most people organization is doing. So that's it this potential from the owners our society every compensation in promotion reasonable our use need. At this point Great Britain's former prime minister, famous state Margaret Thatcher's " If You any – anything to be said if you want – to a man submit, but anything done increase if you want – to a woman " hand it over " reasonable his/her opinion to remember to take It is permissible. Of course, this words half joke, half - hearted acceptance let's do possible. But Uzbekistan women are also our society political in life their own weighty contributions to add capable that they are denial we do not necessary. Our country by our citizens marriage style improve , our women rights protection to do on the surface row laws acceptance This is being done . women organization state and other public organizations state and other public transportation with in cooperation with affairs done increasing
